**ANNEX I: IMPARTIALITY POLICY STATEMENT****Impartiality Policy****Mauritius Accreditation Service (MAURITAS)**

Established as the national accreditation body of Mauritius, MAURITAS has as main function to provide a national, unified service for the accreditation of conformity assessment bodies such as calibration and testing laboratories, inspection bodies and certification bodies.

We have implemented *ISO/IEC 17011:2017-Requirements for accreditation bodies accrediting conformity assessment bodies* to ensure that we operate competently, consistently and in an impartial manner in the delivery of accreditation services.

Our accreditation services are open to all conformity assessment bodies applying for accreditation within the scope of our accreditation schemes. Our accreditation policies, procedures and processes are non-discriminatory.

MAURITAS offers accreditation services to conformity assessment bodies and does not itself provide conformity assessment services or consultancy services that could jeopardize its independence and impartiality.

We have instilled the concept of impartiality in all the activities related to the MAURITAS accreditation process. All the MAURITAS staff, team leaders, assessors, technical experts and committee members have signed agreements whereby they have to declare that they are acting in an objective manner and they have to disclose any potential conflict of interest.

MAURITAS has also adopted a process for identifying, analysing, evaluating, treating, monitoring and documenting on a continuing basis the risks to impartiality arising from its activities including any conflicts arising from its relationships of from the relationships of its personnel. The process includes the involvement of interested parties.
